Our quality policy statement indicates our commitment and focuses on what is important to us as an organization i.e. achieving customer satisfaction; and it prescribes the method by which we accomplish this: by continually improving processes, products, and services to ensure they are consistently meet or exceed requirements. Moreover, our quality policy statement acts as a compass in providing the direction and a framework for establishing key corporate level performance measures and related improvement objectives

At NSS, we manufacture, install and deliver a wide range of products including but not limited to PV Systems, LED lighting, enclosures and other related solar components and integrated systems, that fulfil our customer requirements at the highest level together with the followings:

- Adherence to Quality checking.
- Enhancement and application of technologies of our facilities and enhancement of skills of our people through trainings.
- Immediate response to the customer's queries & corrective actions to the customer's complaints.
- Commitment to satisfy all applicable statutory and regulatory requirements.
- Commitment to continual improvement of our quality management system.
- Commitment to fulfill the need and expectation of our interested parties.

All these will be achieved through active involvement of the management, participation and proper training of each and every employee of the organization.
